

## Keep it closed

### ► The U-Latch Universal Gate Latch

is designed for tubular gates and fencing panels. Once bolted in place, it can be operated with one hand and yet foil the escape attempts of even wily horses, according to the manufacturer. Two notches in the 14-ounce steel hardware accommodate various styles and sizes of link chains. Use one or both for added security. The U-Latch sells for the suggested retail price of \$9.95 (chain not included). Order at [www.u-latch.com](http://www.u-latch.com) or call (877) 820-6132.
